DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I is, claims 1 and 16-26, drawn to a sputtering target.

Group II is, claims 27-32, drawn to a semiconductor element wire.

Group III is, claims 33-34, drawn to a method of manufacturing a copper alloy sputtering target comprising steps of preparing mother alloy, Melting the mother alloy, forming the mother alloy into an ingot, and forming said ingot into sputtering target.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The special technical feature of Claim 1 is the sputtering target composition. The special technical feature of Claim 27 is the semiconductor element wiring. The special technical feature of Claim 33 is method of manufacturing a copper alloy sputtering target comprising steps of preparing mother alloy, Melting the mother alloy, forming the mother alloy into an ingot, and forming said ingot into sputtering target. The special technical features of said

claims from Groups I-III do not correspond to the technical features of each other. Unity does not exist between Groups I-III.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sikyin Ip whose telephone number is 571-272-1241.

The examiner can normally be reached on 5:30 AM - 4:00 PM, Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Roy V. King can be reached on 571-272-1244. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
